Description (quantify quality, source, etc)

Group of large, flat and edge set stones arranged in an ovoid pattern. Local area appears to have been levelled. Situated on E facing slope adjacent to trackway (PRN 105756).

7 large stones, some roughly edge set, situated on level area immediately N of track in position overlooking Amlwch valley + reservoir to E. Placement of stones does not form circle, but rather an oval NW-SE. Noticeable gap to S + smaller gap to N. Stones range between 1.2 x 0.4m x 0.5H to 0.7 x 0.5 x 0.2. Possibly not a true stone circle but certainly a deliberate setting of stones which may well be prehistoric. More NGR.

Dimensions 4.7 x 3.5m externally m OD

Siting

Vegetation Grass / reeds

Landuse Pasture A
